#### **SKILLS**

**HTML** For build responsive and well-structured web pages.

**CSS** For create responsive layouts and ensure consistent styling across devices.

JAVASCRIPT For build interactive and dynamic web elements, enhancing user experience and functionality.

REACT For build dynamic, user interfaces with reusable components and efficient state management.

Actively engaged in learning and mastering the MERN Stack, which includes MongoDB, Express.js, React.js, and Node.js. Focused on building robust, dynamic, and scalable full-stack web applications. Developing proficiency in creating seamless integrations between the front-end and back-end while managing databases effectively. Dedicated to enhancing technical skills and staying updated with modern JavaScript frameworks to deliver efficient and high-quality web solutions.

#### **EXPERIENCE**

# Intern April 2024 - May 2024

Acmegrade

Completed a web development internship where I gained hands-on experience in designing and developing responsive websites. Successfully collaborated with teams to build user-friendly interfaces, optimize website performance, and implement modern web technologies such as HTML, CSS, JavaScript, and React.js. Focused on delivering high-quality solutions while adhering to project timelines.

#### **PROJECTS**

**Saturn Tiles** - Designed and launched SaturnTiles.com, a fully responsive website showcasing custom tile designs. Utilized HTML, CSS, and JavaScript to create a seamless, interactive user experience. The site features dynamic layouts, smooth navigation, and visually appealing design, ensuring an engaging experience across all devices and platforms. Focused on optimizing performance and functionality to provide users with a smooth, responsive, and visually captivating browsing experience.(Try it here)

**ScrollNews** - Developed "ScrollNews" using React.js, a responsive web application that delivers real-time news by integrating with a public news API. Utilized Axios for data fetching, implemented dynamic routing with React Router, and optimized user experience with features like infinite scrolling and category-based filtering.
